Mobility Period Duration: October 6–10, 2025

1. I chose to participate in Erasmus+ mobility program because of need to increase my teaching skill in the area of the Old Testament.
2. During the mobility period I was able to attend lectures and discussion groups and to have private conversations with teaching staff.
3. I experienced full support of Luther Academy and Evangelical Theological Seminary before, during and after the mobility program. All questions and inquiries were answered and solved in shortest time period.
4. Professionally I learned different teaching methods in the area of the Old Testament. It was interesting to see how the Old Testament could be interpreted considering the latest discoveries in Hebrew language use in the time of the Old Testament. Personally, this gave me more confidence teaching courses in Latvia.
5. Luther Academy will benefit from the outcome of this program since I will continue to teach courses there and to improve my teaching and expertise skills.
6. There were no big challenges preparing for the program. If there is one – that would be planning of traveling options with airplane and rented minivan.
7. For the future participants I would encourage to be ready for very intensive study time during the program and to prepare for interaction with participants and teachers.
